ITD-MEGA GURU EVENT › LEARN FROM THE BEST TO BE THE BEST

MISSION: TRANSFORMING LEADERS AND CHANGING THE WORLD FOR THE BETTER

INTRODUCTION FROM DR. WILLIAM J. ROTHWELL

Talent management has become a topic of critical competitive importance to today's organizations around the world. While many organizations have met the challenge of talent management strategically, fewer have been able to drive that strategy into daily practice.

While sometimes HR professionals are expected to do all the hard work in attracting, developing, engaging, and retaining talented people, the reality is that 90 percent of development occurs on the job within the context to doing daily work.

To state that another way, the best way to attract, develop, engage and retain talent is to get leaders engaged in that process on a daily basis. But even professionally trained operating managers have not been given the skills they need to take an active daily role in building talent. And their efforts are complicated because research indicates that managers devote only 20 percent of their time to direct interaction with their own staff. (The remaining 80 percent of their time is focused on doing their own solitary work.)

This 3-day workshop will focus on what leaders should do every day to help implement talent management strategy. I will bring you new thinking on how leaders can take an active role in talent management on a daily basis without becoming overburdened with onerous extra tasks.

I look forward to working with you at this upcoming program. There is so much to learn and to do to achieve much greater results and I would like to take you on this exciting journey with me.

Sincerely yours,
Dr. William J. Rothwell
