Leaders need to grow if their organizations are to grow. Effective Leaders play the most important part in the success of any organization. In this workshop, participants will learn how to lift the lid of leadership and enable their organizations to grow beyond their current

Introduction

Can Leadership Be Learned?

3

At ITD, we believe that leadership is a skill that can be learned. We also believe that leadership is influence and through the behaviors taught during the **Developing The Leader Within You** workshop you can increase your influence and leadership effectiveness.

This workshop gives you the opportunity to evaluate probable outcomes which are determined by decisions you are making right now.

In an easy to implement framework called **The Five Levels of Leadership**, you will be given tools to purposefully and privately assess the current level of your leadership.

This surprising self-revelation will be the foundation and fulcrum for the changes in your thinking, your current best practices and your leadership behavior.
