MISSION: TRANSFORMING LEADERS AND CHANGING THE WORLD FOR THE BETTER

INTRODUCTION FROM WILLIAM J. ROTHWELL, PHD

In challenging economic times, organizations have a pressing need to attract, retain and develop first-rate, highly-productive talent to gain and keep competitiveness. Many organizations are struggling to prepare for the so-called "Talent Wars." That has drawn much attention to the issue of talent management and talent development.

But what do these terms mean? What proven strategies work to attract, manage, retain, position and motivate talented people as economic conditions globally become more challenging? This program addresses these questions.

Real world research has proved the fact that a talented employee can be as much as 20 times more productive than the average worker. Just imagine how much more we are capable of achieving with more talent in our organization.

Over the course of the 5-day, 1.5-hour per session workshop we will focus on key success factors plus the latest practices and developments in the area of talent management, competency modeling and succession management. I will also be sharing with you many contemporary tools and technologies that you will be able to put to practical use right away.

I will bring you to the cutting edge of the profession and enable you use effective talent, competency and succession management strategies and tactics to create competitive advantage for your organization which is sustainable through good and challenging economic times.

I look forward to working with you at this upcoming program. There is so much to learn and to do to achieve much greater results and I would like to take you on this exciting journey with me.

Sincerely yours,

William J. Rothwell,
Ph.D., SPHR, SHRM-SCP, CPLP Fellow
